

Dear Parents,

Please take a moment to rate each category, 10 being the highest interest or importance level and 1 being the least.

The first blank is how you rate the activity and the second is your interest level in helping out in some fashion. It is an amazing privilege to work with your teens and spend time with them in Sunday School, and other activities. Thank you for allowing us to have a small part in their important lives. We love working with your kids and welcome your help and input with these events.

Use the space below to make any comments or to further describe how you could help out in the areas mentioned.

Thank you.

The Weatherholtz, Sumralls, and Wallens.
